MAYES PROPOSED AMENDMENT 2

2010 AUG 12 P 12:59

AZ CORP COMMISSION
DOCKET CONTROL

TIME/DATE PREPARED: August 11, 2010

COMPANY: Tucson Electric Power

AGENDA ITEM NO. 8

DOCKET NO. E-01933A-10-0278

OPEN MEETING DATE: 8-12-10

Page 5, line 9.5, INSERT New Finding of Fact:

"The Commission is concerned that the TEP Residential Solar Energy Incentives could be depleted before the end of 2010, thereby leaving hundreds of Arizonans without a solar energy option and potentially causing undesirable disruption to the solar industry. We believe that it is reasonable to allow TEP the authority to initiate reservations for 2011 residential compliance, up to a total of \$3,000,000, upon exhaustion of 2010 funds, with notice that such PV systems reserved for 2011 residential compliance will not be commissioned until January 1, 2011."

Page 7, line 7 INSERT New Ordering Paragraph:

"IT IS FURTHER ORDERED that if 2010 residential distributed generation funds are exhausted before year end, TEP shall have the authority to initiate reservations for 2011 residential compliance, up to a total of \$3,000,000, with notice that PV systems reserved for 2011 residential compliance will not be commissioned until January 1, 2011."

Make all conforming changes.
